Factsheet Installments Continia Finance Solution

for Microsoft
Dynamics™
365 Business
Central

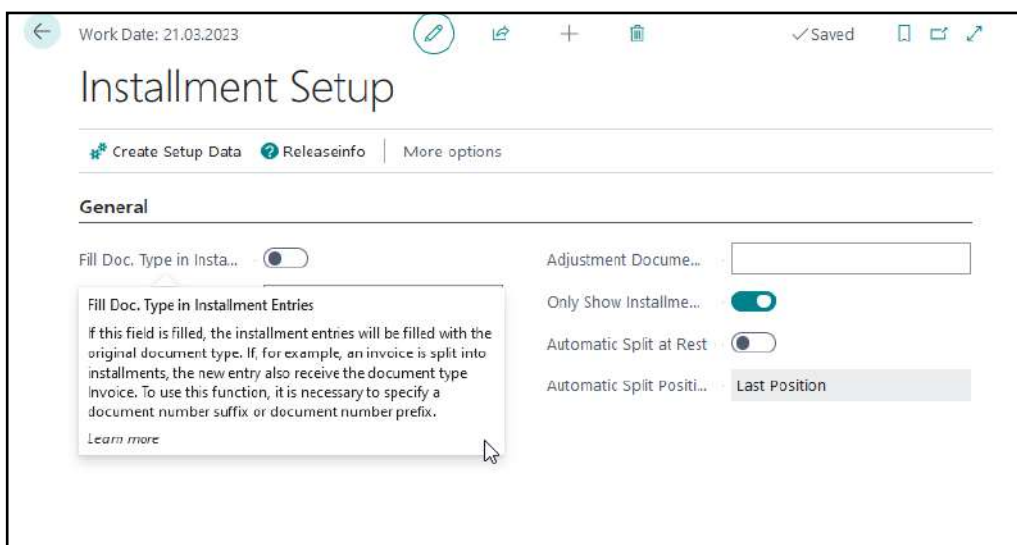

The module Installment is part of Continia Finance, the complete solution for financial management in Microsoft Dynamics 365 Business Central. In the following we provide an overview of the module's main functions.

Benefit

The module gives the opportunity to split a sales and/ or a purchase document in several installments. The apportionment can be made out of a posted document, but also while you are posting. Furthermore, it is possible to use an installment template.

Highlights

You decide in the setup, whether to fill the Doc. Type in installment documents or not.

Define various installment templates, in which you are able to determine different maturity dates. You can also use those templates for creditors and vendors.

Code #	Type #	Description
DEB_4	General	d
DEB_3	Customer	Zahlung in 3 Raten
DEB_5	Customer	Zahlung in 5 Raten
KRED_5	Vendor	Zahlung in 5 Raten

Split an already posted document into different rates by using a template or doing it manually. You decide in the entries view, whether to show all postings according to a document or only the installment posting. This setting can also be done in the general setup and afterwards decide document related.

Before posting a document, you are able to use an installment template or to split the document manually into the desired rates.

While posting the invoice, the original document is closed by an offsetting entry and the desired installments are posted to all open documents.

There is also the possibility to cancel an installment payment. The original document will then reopen again.

Overview of the module Installments

- ✓ Definition of installment templates
- ✓ Automated splitting of remaining amounts by splitting on different rates
- ✓ Deposit of installment templates also at customers and vendors
- ✓ Splitting a document out of an already posted entry
- ✓ Definition of rates in a document, which afterwards will be taken into account while posting
- ✓ Cancelling of installment payment positions
