

Continia integrates Pagero Online in their e-Documents products

Pagero enters into a partnership with Danish Continia Software, world leading supplier of add-ons to Microsoft Dynamics NAV. The partnership implies that Pagero Online is integrated directly into Continia e-Documents, so that Microsoft Dynamics NAV users can handle their inbound and outbound invoice flows electronically directly from their ERP system.

Initially, the solution will be available for Microsoft Dynamics NAV users in Denmark, Sweden and Norway. Over time, the solution will be launched in more countries. The connection to Pagero Online is independent of what ERP system and file format that the business partner is using. Furthermore, Pagero offers a range of value-added services that streamlines the invoice flow even further, for example by validation or enrichment of the invoice information.

The integration between Pagero and Continia also gives Microsoft Dynamics NAV users the possibility to reach Pagero's entire network with connections to over 120 operators around the globe, including countries that are subject to legal requirements on e-invoicing.

“The partnership with Pagero means that we can offer companies fully automated communication of invoice documents directly to and from Microsoft Dynamics NAV with customers and suppliers from all over the world. Initially via Microsoft Dynamics NAV partners in Scandinavia, but over time globally”, says Kim Dalsgaard Christensen, Chief Commercial Officer, Continia Software A/S.

“We are really pleased with this partnership. To be able to tell our customers using NAV that Pagero Online is now integrated in Continia gives us much better possibilities to meet their expectations when it comes to further handing of the invoice documents inhouse”, says Bryan Lindenskjold, Country Manager, Pagero Denmark ApS.

About Pagero Group

Pagero Group develops and markets Pagero Online, a cloud based network platform for communication of business documents within the purchase-to-pay, order-to-cash and logistic-to-pay (TMS) processes. Pagero Online is independent of ERP system and suits companies of all sizes and within all industries.

Our value-added services enable our customers to achieve accurate data and obtain a 100% digital inbound and outbound business document flow, resulting in minimal error handling, compliance with local VAT regulation and control over company spend. Pagero Online is also interconnected with an extensive number of other networks for global reach.

Pagero Group has over 190 employees with headquarter in Gothenburg, Sweden and offices in Stockholm, Oslo, Copenhagen, Helsinki, London, Dublin, Amsterdam, Rome, Madrid, Paris, Istanbul and Dubai. For more information, please visit
