

Collection Management

EURO PRICE SHEET /// Microsoft AppSource til Business Central Cloud

Valid January 2025

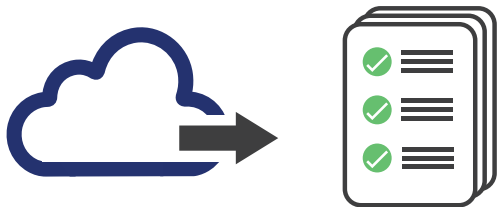

Download and install

To get started, simply select and install Collection Management via Microsoft AppSource. You will automatically be prompted to subscribe to the solution to gain access to the app. A trial of this solution does not make sense until an agreement with a provider of the collection method is in place, but it is theoretically possible if you already have an existing agreement.

How is my usage calculated

The usage is based on the number of sent collections from a collection journal. Several collection methods only support a single collection per customer per day, and since it is often possible to combine multiple invoices into one collection entry, a combined entry will only be calculated as 1 collection.

Please note, however, that there is an additional cost related to the collection charged by the provider of the collection method (for example, Mastercard Payment Services for Betalingservice/Leverandørservice or Worldline/Bambora for card collection). This collection fee is not included in the usage billing for Collection Management and is settled directly between the owner of the Business Central account and the collection provider.

Calculate your monthly price

“To” and “From” refer to the number of transactions.

From*	0	25	100	200	300	400	500	650
To*	24	99	199	299	399	499	649	999
Essential	26	82	114	124	129	135	138	154

All prices are in EURO and exclude VAT. Errors and price changes are reserved.

Do you have a higher usage each month?

On page 2, you can see the prices for larger quantities of dispatches.
