How is my price calculated?

The price is calculated based on the number of transactions generated when processing documents in Continia Document Capture.

Each document counts as **one transaction, when you:**

- Import and register a document including attachments

The following do **not count as transactions:**

- Send or receive a response via the Continia Delivery Network

Your price depends on the **total number of transactions across all companies and production environments within a calendar month.** The pricing table on this page provides an overview of the applicable pricing tiers.
