The free trial gives you access to all Document Output functionality for up to 30 days or until you've sent the maximum number of emails or printed documents. Following the trial period, or at any point during it, you can easily subscribe to Document Output if you want.

You'll already be up and running when you subscribe, and you can then continue working with the same data as in the trial period.

How is my price calculated?

The price is calculated based on the number of transactions, which correspond to documents created in Business Central and sent via Continia Document Output. Each document counts as **one transaction**:

- An email including attachments
- An electronic document through Continia Delivery Network, including attachments
- A printed document

The following **do not count as transactions**:

- Send or receive a response via the Continia Delivery Network
- Other attachments related to for example a bank statement, or a reminder. The same applies to embedded documents, such as ZUGFeRD files.
- Files created outside Business Central (for example campaign flyers or terms and conditions) that are attached to an email template

Your price depends on the total number of transactions across all companies and production environments within a calendar month. The pricing table on this page provides an overview of the applicable pricing tiers.
