

MOBILEPAY SUBSCRIPTIONS

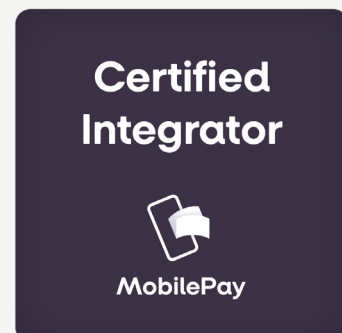

Send recurring collections and subscriptions via MobilePay

MobilePay Subscriptions is an easy and effective solution to handle recurring collections directly from Business Central. With this extension, you get all the familiar functionality from the Mobile Pay application – now also for recurring collections.

Simple, fast and effective collection of payments!

In collaboration with MobilePay Denmark A/S, Continia Software has developed the extension MobilePay Subscriptions for Microsoft Dynamics 365 Business Central. This extension enables you to charge your customers automatically on a recurring basis via MobilePay – directly from Dynamics 365 Business Central.

After adding the MobilePay Subscriptions extension to your Microsoft Dynamics 365 Business Central, you are ready to customize the solution to your organization. The setup is quickly done with the build-in assisted setup.

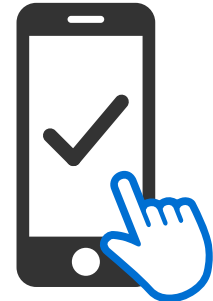

KEY BENEFITS

AUTOMATICALLY COLLECTION OF PAYMENTS

This extension adds another collection functionality to your finance system, enabling your customers to pay recurring payments automatically via a MobilePay payment agreement.

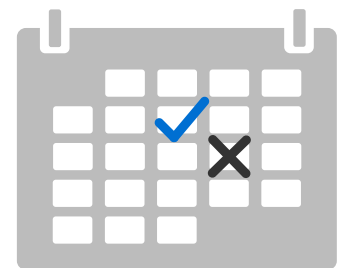

TRANSPARENT PAYMENT STATUS

You can track the payment status at any time. This way, you can see if the payment has been approved, rejected, or paid, or if the due date has been passed.

ALSO SUPPORTS ONE-OFF PAYMENTS

If you need to collect a one-off payment in between the recurring payments, it is also supported.

LESS ADMINISTRATION

When you reduce the level of manual typing, you reduce the risk of errors.

LOWEST PRICE ON THE MARKET

The price per transaction is one of the lowest on the market

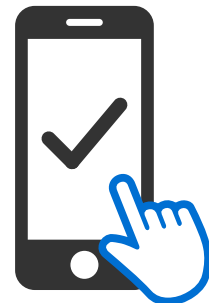

KEY BENEFITS

ONE SWIPE TO GET STARTED

With just a single swipe, your customer has accepted a payment agreement. Future collections are then paid automatically on due date.

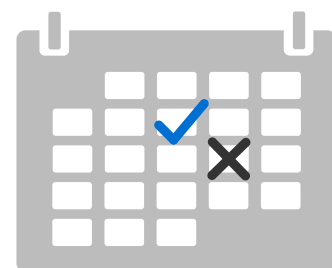

PAYMENT INFORMATION IN ONE PLACE

Credit card information is stored directly in the MobilePay app.

FULL FLEXIBILITY

You always have a clear overview of your payments and flexibility to set the settlement period and invoice date.

PAYMENT STATUS IN ONE APP

Once the payment is completed, customers can see it under 'Activities' in the MobilePay app.

Outstanding payments are also presented in a clear overview, providing your customer with a complete overview of all payments.
