SEK PRICE SHEET /// Microsoft AppSource on Business Central Online

Are more than 50% of your Named Expense Users inactive during a calendar month?

In the case that a majority of your Named Expense Users are inactive and have not submitted any expenses to Business Central, you will get a discount. This means that you will automatically be invoiced in relation to the number of Active Expense Users instead.

This eliminates the need to adjust your list of Expense Users in periods with low activity, for example during holiday periods.

We will automatically invoice the cheapest settlement (Named or Active Expense Users) for each calendar month. However, we will invoice for an Active User for an entire month as a minimum.

What is an "Active Expense User"?

Users who have submitted an expense to Business Central (a registered purchase, a mileage registration or completed a per diem).

Please note: You will automatically be invoiced for Active Expense Users if this is the cheapest form of settlement in the particular calendar month.

Pricing per Expense User per month
